

How to Add Free Tokens for SKP-900?

You need to go to the official website: <http://www.superobd.com/> to register and login, then click the "download" menu, download and install the program named "SKP-900_Add_Free_Tokens (2014-01-11)".

The screenshot shows the SuperOBD website interface. At the top, there is a navigation menu with options: Home, About Us, Products, News, Download, Video, and Dis. The main content area features a large banner for "SKP-900 Key Programmer V2.2 Released!" with the sub-heading "ADD Support Car Models:". Below this, several car logos are displayed, including Honda Jade, Honda CRIDER, Honda Accord, Volkswagen, Suzuki, Jaguar, and Dodge JCUV. A "View Detail" button is located below the logos. On the right side of the banner, there is an image of the SKP-900 device. Below the banner, the "Download" section is active, showing a breadcrumb trail: Home > Download > Common Files. Under "Common Files", there is a list of files: SKP-100_Update_Tool_V1.0, SKP-900_Add_Free_Tokens (highlighted with a red box and a red arrow pointing to it with the text "Click HERE"), and SKP-900_UPDATE_TOOL_V2.4.

1. Connect SKP-900 with computer using USB cable.

2. Start SKP-900 and select ADD FREE TOKENS

3. Run the activation software, scan the ports or manual select a port(port number less than COM 9)

4. Click "Activate" and waiting for success
