**Mazda VCM II Features:**

1. The VCM II is the brand new diagnostics interface from Mazda for use with the Integrated Diagnostics Software (IDS).
2. The VCM II is the new Mazda OEM diagnostic tool. It provides dealer-level diagnostics using the IDS
software.
3. The VCM II will be required for all new 2013 Mazda vehicles and is backwards compatible with most 16 pin Mazdas.
4. The VCM II supports the Vehicle Measurement Module (VMM) and new Customer Flight Recorder
(CFR).
5. The VCM II has shock resistant rubber ends, making it suitable for garage and workshop
environments.
6. The CFR replaces the Vehicle Data Recorder (VDR).
7. Wireless functionality peferred for all IDS functions including modulereprogramming. USB wired connections ae only required to update the

VCM II loaded code and to set up the VCM II to function as a Customer Flight Recorder.
